

Garden Pergola Column Nameplates

Please help us build our beautiful Prayer Garden Pergola!

The proposed pergola will be made of American red cedar and extend from the east to west border of the church courtyard to designate the entry to our prayer garden. It will be unstained, handsomely planted, have a concrete path beneath it and be illuminated at night.

A namesake plate for each column is being made available to help cover the cost of constructing the pergola. For a donation of \$ 5,000 a nameplate can be placed on a column and inscribed as the donor chooses. One or more columns can be reserved for a deposit of \$ 1,000 per column. Please complete a form for each column. Balances can be paid in installments if requested. Early enrollment ensures a column will be available and will help us greenlight the project.
